# Kids Play Area

For Daily Garden Use

School Field Trips

Daycare Field Trips

Family Park

Safe place for stay at home moms to bring the kids to play

Food for public sale or local  
pantry donations

Plenty of seating including benches and tables located throughout the garden to relax and enjoy the scenery. Walking paths and trails located throughout the park to explore all areas and create several routes to get from one end to the other without harming the landscape.

A stocked pond complete with bridges and waterfalls would wind throughout the park.

Plenty of parking and bike racks would be located just outside the gates.  
Parking lots could be used for food truck vendors or larger farmers markets.  
The community garden would be located on or near bike trails

Your [LINK](#) to the Corridor

A 3D rendering of a chain of metallic links. The chain is composed of several silver-colored links, with one link in the foreground being a vibrant blue. The chain is set against a black background and is reflected on a glossy surface below it. The word "LINK" is written in a light blue, sans-serif font to the left of the chain.
