

# GuideLink Center

IMMEDIATE ACCESS TO MENTAL HEALTH AND SUBSTANCE USE CARE

## ***Status Update for Joint Entities Meeting***

April 19, 2021

- Original intent was to open all GuideLink services at full capacity at the same time
- Several factors led to instead opening with a phased approach, starting with crisis stabilization services on February 15, 2021
- Currently GuideLink is taking referrals from law enforcement and mobile crisis but not serving walk-ins and substance use services have not yet begun
- Additional staff and safety/workflow protocols are being added before opening to walk-ins
- Goal is to have full services and available to walk-ins by June 1
- First Advisory Board meeting held April 6

- Updated data will be available Monday (4/19) and shared at the Joint Entity meeting
  - Data reports are refreshed every Monday, so we will share the latest data with the group
